

# LC COLLECTION

*LEECO* / Since 1985

# For the way you live — now and later

Furniture should work hard for you.

It should last, adapt, and still look right — years from now.

The LC Collection is built from steel for strength, shaped with precision for beauty, and designed to fit effortlessly into homes, offices, and studios.

One piece is useful. Many together become something greater.

Buy it once. Use it forever.

## LC01 — Bookcase System Structured for Everyday

Not designed to be configured but to be chosen.  
A series of bookcases, each defined by its balance of  
openness and enclosure.  
Shelves, drawers, and sliding doors arranged with intent.  
Formed from folded steel, where structure and surface  
become one.  
A system of considered choices.

## LC01 — Bookcase System Structure in Variation

Built as one system. Made in many forms.  
Open shelves for display. Drawers and sliding  
doors for concealment.  
Different heights, same language — each piece  
aligned in proportion and purpose.  
A steel frame, folded with precision — quiet,  
balanced, and enduring.  
Everything works together. Nothing stands apart.

## LC02-A — 120 cm Sideboard Scaled for Stillness

Built small. Made strong.

Three drawers for the things you reach for often.

A top edge, bent from one sheet of steel — smooth to the hand, and easy on the eye.

Everything you need. Nothing you don't.

## LC02-D — 180 cm Sideboard Precision in Silence

A steel sheet — folded, not forged — becomes structure, surface,  
and frame.

The top edge bends gently, not to decorate, but to define.

Sliding doors reveal an interior of calm utility.

No noise. No handles. Just rhythm, proportion, and purpose.

## LC03 Series Together, greater

One is useful. Many are beautiful.  
Designed to be repeated — lined up,  
stacked, or arranged as you need.

Each piece stands on its own.  
But together, they form something greater:  
rhythm, order, and quiet strength.

## LC04 — Trolley Made to move.

Built from folded steel, LC04 carries what you need — then quietly rolls away.  
Its form is simple. Its purpose is clear.  
Use it in the kitchen, the studio, or wherever work takes you.

LC05

Mobile Cabinet

LC05-A in concrete grey

LC05-B in terracotta red

LC05-C in marble white

## LC05 — Mobile Cabinet Every Detail Considered

Ball bearings guide each movement — smooth,  
controlled, and consistent over time.

Fittings are integrated, not added, reducing friction and  
effort in use.

Nothing is exposed. Nothing interrupts.  
Each action feels light, quiet, and exact.  
Designed through detail, not decoration.

## LC05-A - Mobile Cabinet Part of Living

Not only for storage — but for living with.  
An open space below, naturally used and  
redefined over time.

For objects, for pause, or simply for presence.  
It becomes part of the room — quiet, familiar,  
and lived-in.

Made to be used. Made to belong.

## LC06 — Multi-Use Table Beyond Function

A table, scaled to hold the space around it.  
Two surfaces, separated by a deliberate line — creating  
space that adapts to how it is used.  
For working, meeting, or gathering — never fixed to a  
single purpose.  
The base supports with quiet strength, balanced and  
precise.  
Wheels are integrated — allowing movement when  
needed, stability when at rest.  
Built for use.  
Made to stand with presence.
