FURNITURE
& INTERIOR

We believe that furniture is *more than* an object.

It is part of the atmosphere we live in, the rhythm of our daily lives, and the silent witness to the stories unfolding around us. FÖRNI was born from a simple but powerful idea: that thoughtful design, honest materials, and skilled craftsmanship can transform everyday spaces into places of warmth and meaning—creating what we like to call good moments at home.

Rooted in the forests of Turkey and shaped through collaborations with independent designers, our collections bring together the enduring strength of Istranca oak with contemporary design thinking. Each piece carries the memory of the material, the vision of its designer, and the care of the hands that produced it. We believe in furniture that is timeless rather than fashionable, natural rather than artificial, and enduring rather than disposable.

At FÖRNI, design begins with respect: respect for nature, for material, for the designer's voice, and for the homes our furniture will inhabit. Our approach is simple—traditionally sustainable, rooted in craft, responsibility, and the quiet intelligence of natural materials.

Craft, responsibility, and the quiet intelligence of natural materials.
This is how we work.
This is what we believe in.

förni

TRADITIONALLY

At FÖRNI, sustainability is rooted in our relationship with wood.

Our furniture is crafted from Turkish oak, a material valued for its durability, warmth and timeless character. By sourcing wood through responsible forestry practices and processing it within our own production ecosystem, we maintain a transparent relationship with the material from forest to finished piece.

Working closely with the material allows us to respect both its origin and its potential. Solid oak furniture is designed to age gracefully and remain part of everyday life for many years, reducing the need for replacement and encouraging a more

Throughout the production process we prioritize environmentally responsible components from certified adhesives to carefully selected finishes ensuring that the pieces entering living spaces are safe, durable and built to last. conscious approach to consumption.

SUSTAINABLE

Our facilities also integrate energy recovery systems that transform wood waste into usable energy, reducing environmental impact while improving production efficiency.

For us, sustainability means respecting the forests we work with, producing responsibly and creating furniture designed to live with people for generations.

RESPONSIBLE FORESTRY

Our oak is sourced through forestry practices that support regeneration and long-term ecological balance.

SOLID WOOD LONGEVITY

Furniture made from solid oak is designed for durability, reparability and long-term use.

CERTIFIED MATERIALS

Adhesives, coatings and components are selected according to international health and environmental standards.

ENERGY RECOVERY

Wood waste generated during production is reused to produce energy within the manufacturing process.

RüyA Akyol Studio

Şule Koç Design

FÖRNI was built on the imagination of visionary designers and continues to grow with them. From the very beginning, we imagined the brand as an open platform where different creative voices could meet around shared values: respect for material, refined craftsmanship and thoughtful design.

Form&Seek

MEET THE DESIGNERS: THE CREATIVES BEHIND FÖRNI

ABRA ID

ABRA ID is an Istanbul and Cologne based design studio founded by Başak Bakkaloğlu and Cem Cemal Çobanoğlu and later joined by Umut Erkin Güngör. Working across furniture, product and spatial design, the studio is known for its multidisciplinary approach and its emphasis on balance as a guiding design principle. ABRA's work has been widely exhibited and published internationally, and the studio has received numerous design awards, including first prize in the "Istanbul Senin Urban Furniture Competition."

Bilge Kalfa

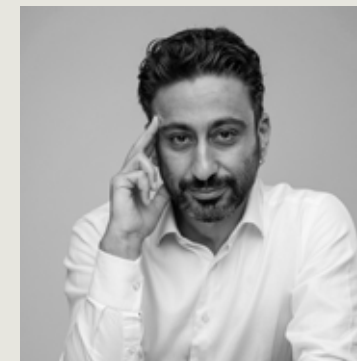

Bilge Kalfa is a Berlin-based architect and designer working between Turkey and Germany. With over fifteen years of experience in architecture, interiors and furniture design, she combines architectural thinking with a refined material sensitivity. Her work has been exhibited at international design events including Dubai, Berlin and Copenhagen Design Weeks. Kalfa is also the co-founder of the artisanal rug brand The Keep and teaches as a visiting lecturer at Berlin International University.

demirden | ilio

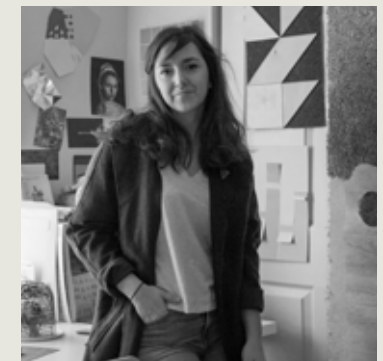

Founded in 1994, demirden | ilio is a multidisciplinary design studio working across interior, graphic, product and exhibition design. The studio has developed a broad international portfolio and received more than twenty international design awards, including several Red Dot Awards, two iF Gold Awards and the Design Management Europe Award. Through its product brand ilio, the studio has gained international recognition for its refined approach to furniture and tableware design.

Erdem Akan

Erdem Akan is an architect and designer whose work spans architecture, furniture and product design. His approach focuses on the relationship between structure, proportion and material expression. Working across different scales, he seeks to develop objects and spaces that are both functional and quietly expressive. Akan collaborates with various brands and institutions, contributing designs that balance technical clarity with a strong conceptual foundation.

Form&Seek

Form&Seek is a design practice working at the intersection of product design, material exploration and contemporary craft. The studio develops objects that combine experimental thinking with precise detailing and production knowledge. By exploring new ways of working with materials and manufacturing processes, Form&Seek aims to create objects that are both innovative and timeless, bridging design culture and everyday use.

MEET THE DESIGNERS: THE CREATIVES BEHIND FÖRNI

GOA Design Factory

Rüya Akyol Studio

Şule Koç Design

Nazar Şigaher

Marvin Kasper

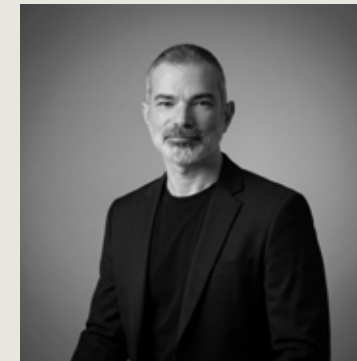

Goa Design Factory is a multidisciplinary design studio focusing on product, furniture and spatial design. The studio approaches design as a process of research, experimentation and collaboration, bringing together different creative disciplines. Goa's work reflects a contemporary design language that balances functional clarity with expressive form, while maintaining a strong sensitivity toward materials and production techniques.

Rüya Akyol Studio is a design practice focusing on furniture and product design, with a particular interest in material exploration and tactile qualities. The studio's work combines contemporary forms with subtle references to craft traditions, creating objects that are both refined and approachable. Through collaborations with various brands and manufacturers, Rüya Akyol develops designs that emphasize simplicity, usability and longevity.

Şule Koç is an industrial designer specializing in product design, spatial design and design consultancy. After graduating from METU's Department of Industrial Design, she founded Şule Koç Design in 2011. She works with local and international companies across furniture, lighting and trend research. Her work has been featured in publications such as Wallpaper and Frame, and she has received numerous awards including Red Dot, Design Turkey, EDIDA and German Design Awards.

Nazar Şigaher is an Istanbul-based designer specializing in furniture and product design. After graduating from Mimar Sinan Fine Arts University, he worked in several architectural studios before establishing his independent design practice. He co-founded the furniture brand Daedalus and has collaborated with various international brands. His work has been exhibited in institutions such as MUDAC in Lausanne and CID in Belgium. Şigaher received the German Design Award in 2019 and was named Designer of the Year by Elle Decoration Turkey in 2023.

Marvin Kasper is a Berlin-based designer whose work focuses on contemporary furniture and product design. His practice explores the relationship between industrial production and refined craftsmanship, seeking clarity in form and construction. Through collaborations with international brands and studios, Kasper develops objects that balance technical precision with a quiet and understated design language.

A collection shaped by material, craft and the unique voices of independent designers.

PRODUCTS

A round wooden table is the central focus, set on a black and white checkered rug. On the table, there is a yellow ceramic vase, a blue ceramic vase containing greenery, a blue ceramic candle holder with a white candle, and a white candle in a wooden holder. The scene is lit with warm, natural light, creating soft shadows. Two large black circles are overlaid on the right side of the image, framing the text.

Gathering places where material, proportion and everyday rituals come together.
